

## Northeast Ohio

The many organizations in the Cleveland - Akron Corridor currently involved in the Microelectronics, Optics and Photonics (MOP) marketplace will be your customers, suppliers, and partners.

### Location:

- 42% of the U.S. and approximately 40% of all Canadian population reside within 500 miles.
- 24 Fortune 1000 companies headquartered locally and more than 100 firms with above \$100 million in sales.

### Critical Mass:

- 30 existing companies, multiple trade groups and sponsored clusters, entrepreneurship and venture vitality.
- Over \$250 million venture capital raised in Ohio in 2001.
- Over \$8 billion in area annual exports in commodities and goods.

### Technology Resources:

- NASA Glenn Research Center.
- Federal and State-sponsored technology activities.

### Workforce:

- 75,000 high-tech workers.

### Education Resources:

- Over 20 universities, most offering technology degrees.

## NeoMOP

- Northeast Ohio Microelectronics, Optics and Photonics trade association.
- Comprised of 38 major companies, non-profit organizations, governmental agencies, and universities...and still growing.
- Launched October, 2001.

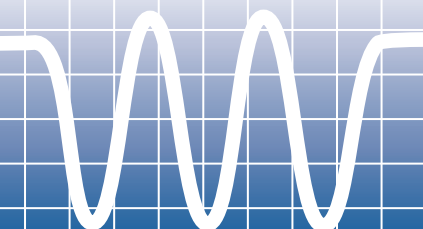

## NeoMOP Mission

- Create industry identity and connectivity.
- Share business and technology experience.
- Enhance marketing opportunities.
- Network with institutions of higher learning.
- Promote Northeast Ohio.

## Our Industry's Goals

- Provide a solid foundation for industry growth.
- Work to make Northeast Ohio an internationally recognized leader in the MOP industry.
- Recruit companies to the Northeast Ohio area.
- Support the positive image of the industry and Cleveland.
- Provide networking opportunities within Cleveland and beyond.
- Create sales and partnership opportunities.

## Our Initiatives

- Communicate our vision of the industry.
  - Share information.
  - Build on our commonalities.
  - Foster industry growth.
-
